No perishable articles sent C. O. D.

All orders must be accompanied by cash, unless from well known dealers, or good security given; I cannot afford to take risks.

No plant order filled for less than $3.00.

Money to cover postage and express must be sent for plants.

State plainly how plants are to be shipped.

Complaints, if any, must be made within ten days after plants are received.

Parties desiring credit must state the length of time desired and remit promptly at date agreed upon for settlement, otherwise sight draft will be made without further notice.

CALIFORNIA SEEDS.

To Patrons:—It is now fully demonstrated that California grown seeds are unsurpassed by any in the world. The long dry season and equable climate are perfectly adapted to growing and ripening seeds. Their germinating qualities are unsurpassed. Those who have not tested them will find it to their advantage to do so. Contract orders taken to grow seeds in quantity. The patronage of all who receive this list is solicited. Very truly yours,

THEODOSIA B. SHEPHERD.

Cacti and Succulent Plants.

I have a very extensive collection of Cacti and Succulent Plants, especially of the large blooming showy Cacti, such as Cereus, Phyllos, Epiphyllums, and Echinopsis.

To those wishing to offer Cacti, I will give rates on collections or in quantity. My plants will bloom. The secret of having blooming Cacti is to take cuttings from wood that has bloomed. Such cuttings will give blossoms the first season.

Echinopsis Mullerii and "Case Knife Cactus" are "plants for the million." They are beautiful and grow for any one.

Cacti are grown readily from seed and are extremely interesting in all stages. The seeds should be planted in sand in shallow, well drained boxes. They should be kept moist and covered with glass They can be left in the boxes until well established; should not be over watered nor allowed to become dry after they are once started.

A Rare Collection of Plants.—I have a large collection of plants not named within. Send for retail catalogue. One-third discount given the trade from retail prices.

Unrooted Cuttings.

Being so far from trade centers, it is unprofitable to keep a large stock of plants on hand for the wholesale trade I have a great variety of fine, large plants growing outside and am prepared to grow to order all varieties on list, also in my retail catalogue which I will send on application. Fine roots of smilax at all seasons. Contracts taken to grow plants in large quantities.

Pelargoniums, foliage Geraniums, Begonias, and decorative plants a specialty. Strong unrooted cuttings at the following prices: Bignonia Venustra, B. Speciossa, Bougainvillia Glabra, B. Spectabilis, $1.50 per 100 unrooted. Tecoma Mackenii, T. Jasminoides, Jasmine Poeticum, $1.00 per hundred. Tacsonia Exoniensis, T. Sutherlandia, T. Buchani, $1 25 per 100. Rhynchospermum Jasminoides, $1.25 per 100 Akebia Quinata, 75c per 100. Ampelopsis Royalii, 75c per 100. Passaflora, Constance Elliott, P. Edulis, $1 per 100. Bignonia Tweediana, 75c per 100. Mandevilla Suaveolens, $1.25 per 100. Hibiscus Subviolaceus, H.Mineatus Semi-plena, $1 per 100. Bouvardia, four sorts,$1.25 per 100. Fuchsias, assorted, 35c per 100. Laurestinus Grandiflora, $1 per 100 Abelia Rupestris, Laugusta Ovata, 50c per 100.

Novelties and Specialties.

Plants, Seeds, Cacti and Succulents for 1898.

ABUTILONS. New Fancy California "Bellflowers." Flower lovers will be delighted with the great variety of charming flowers produced by this new strain of "The Chinese Bellflower." The flowers are of all sizes and forms. There are beautiful drooping bells, gay little parachutes, dainty swinging flowers on thread-like stems, large, flaring blossoms, flowers crinkled like crape, others shining like satin, and some so full as to be almost double. They are all colors,—pure white, lemon-yellow, rose, scarlet, crimson, as well as yellow and red shades beautifully veined. The foliage is of all sizes, shapes, and textures. On some plants the leaves are so small and the blossoms so brilliant that there seem to be more flowers than leaves. Extra selected 50 cts. per pkt, $4 per oz.; grand mixed, $3 per oz.; choice mixed, $2 per oz.

Mrs. Shepherd's Grand New Early Blooming Fancy Cosmos.

The following is an extract from an interview with W. Atlee Burpee, the well-known Philadelphia seedsman, taken from the Los Angeles *Evening Express* of May 19th:

"I have just been visiting in Ventura the garden of Mrs. Theodosia B. Shepherd of that point.

"Mrs. Shepherd has the finest Cosmos in the world. It has *never been equalled.* She has developed it herself from a small flower, two inches across, to monster blossoms from four to five inches in diameter. I counted *thirty-five varieties* in her garden yesterday. Mrs. Shepherd is

quick to see possibilities and is *developing some wonderful things* in her garden."

These giant flowers are surpassingly beautiful, measuring 4½ to 5 inches across. Some are shaped like single Camellias, but larger and more beautiful; some of the crimson ones could almost be taken for single Dahlias; white ones have plaited petals prettily fringed, resembling the Romneya Coulterii, or California Tree Poppy. The petals are plain in some flowers; in others pinked, toothed or fringed, and beautifully overlapping. Colors range from pure white through shades of pink and red. The latter are dark rich shades of red, shades heretofore unknown in Cosmos. Some white ones are delicately flushed or flecked with pink or mauve, and very beautiful flowers in pink and mauve have a dark red ring around the eye. The daintiest, white, pink and flushed, have lacinated petals, fringed to the center of the flower, and resemble Marguerites, but are more beautiful and esthetic. The giant white are especially handsome, with very large, broad petals; flowers of great substance, almost as chaste and lovely as lilies. 25c. per pkt., 65c. per oz., $8 per lb.

COSMOS, Giant Red, Pink and White. Separate. Flowers of perfect form, great size and beauty; measuring 4½ to 5 inches across. 35c. per pkt., 75c. per oz., $8 per lb.

"TINTS OF DAWN." New and distinct. White ground, finely flecked or flushed with delicate pink; some are flushed much darker around the eye than others; they are variously formed and are very beautiful. 35c. per pkt., $1 per oz., $10 per lb.

"NEW MARGUERITE" COSMOS. Mixed. One of the prettiest and daintiest varieties imaginable; flowers measure from 2½ to 3 inches across; the petals are deeply and irregularly lacinated or fringed and resemble Marguerites, but are much more esthetic and beautiful. 35c. per pkt., $1 per oz., $12 per lb.

"SINGLE DAHLIA FLOWERED" Crimson. Splendid flowers of the deepest, richest shades of crimson, very large, resembling Single Dahlias in shape; with age they take on a lighter shade, which adds greatly to the effect, giving several different shades on one plant; the contrast between the brilliant red flowers and the rich green of the foliage is very beautiful. 75c. per oz., $8 per lb.

COSMOS, New Orange Colored. A variety said to have come from Mexico, but which I received from the south. The foliage is much more coarsely serrated than the ordinary Cosmos; the plants grow 4 to 5 feet high and are covered with myriads of brilliant orange yellow flowers, 2 inches across. It seeds very sparingly. ~~50c. 1000 seeds, $1.50 oz. Stock very limited.~~ $6. lb

Cosmos, New Improved Yellow.

This pretty and useful Cosmos is greatly improved after two seasons in California; the flowers are twice as large (about 2¾ inches in diameter), with broader petals and the plants more upright in growth. It begins blooming when very young, and blooms profusely and continuously,

giving a mass of bright color that is very attractive. 25c. per pkt , $2.50 per oz.

Calliopsis Lan. Grandfl. Improved.

"CALIFORNIA SUNBEAMS." These lovely improved varieties are much larger than any heretofore offered, and have the great recommondation of being *early blooming;* the flowers are beautifully formed with very long stems; some saucer-shaped, others flat, some Cosmos flowered, some exquisitely incurved while others are like great buttercups. The petals are broad, with pinked, toothed or irregularly fringed edges. Some are very light yellow, others a deeper shade, darker around the eye—all so fine, it is difficult to say which is most beautiful. They are 3 to 4 inches in diameter. 50c. per pkt., 75c. per oz., $7 per ℔.

CENTAUREA NEW MARGUERITE, pure white, 25c pkt., $1.50 oz.

New Large Flowering Fancy Dianthus "Oriental Beauties" (From South Japan.)

A magnificent strain of new large flowering Dianthus, which I have thoroughly tested, and can recommend as a novelty of sterling merit. These splendid flowers measure from 3 to 4 inches across with petals measuring 1½ inches diameter. They are most exquisitely formed, the petals being full, overlapping, crinkled and lacinated. The flowers possess that peculiar and artistic charm so noticeable in all plants from the Flowery Kingdom. They range in color from pure white through shades of pink and crimson, the coloring and markings is rich beyond description, nothing could be more dainty and pretty than their charming ruffles and frills. Every one is delighted with them. They are perfectly hardy, are perpetual bloomers, needing only to be cut back every few weeks to bring on a new crop of flowers. 50c. per pkt., $1.50 per ¼ ozs., $5.50 per ℔. Write for price on larger quantity.

Mrs. Shepherd's New Eschscholtzias, "The Golden West."

Grand New Eschscholtzias, developed from E Maritima, a pretty variety, having light canary yellow flowers with an orange blotch at the base of each petal, forming a Maltese cross in the center. The original flowers measured two inches across. The flowers of these new giants measure from *3½ to 6 inches in diameter;* they have very large overlapping petals, often delicately waved at the edges. They are beautifully and variously formed; some are flat and wide open, some saucer-shaped, others very deep with flaring edges. In some the orange blotch almost suffuses the whole flower, in others it runs into the yellow in fine penciled lines, others again have an orange center with a margin of clear yellow, while the Maltese cross in some of the flowers is very distinct. Gorgeous beyond description. 50c. per pkt., $4 per oz , $30 per ℔.

Mrs. Shepherd's Grand New Zonale Geraniums, "Good Venture Strain."

It is with great pride that I offer this grand strain of Geranium's seed saved from my new seedlings. The flowers are very large and round, of the most perfect forms with splendid trusses, some of them forming balls 16 inches in diameter. The colors are all shades of scarlet and crimson, rose pink, salmon, cream veined pink, blush, and pure snowy white; many beautiful varieties of the Sou de Miranda type, greatly enlarged and improved, all the new auriole types with lovely rings and large white eyes. These all stand the hot sun and are sure to bring many beautiful new and hardy varieties. A finer collection has never been offered. 50c per 100 seeds, $4 per 1000; 10,000 or more $3 per 1000 seeds.

New Black Foliage Heliotrope.

Two new Heliotropes: "Egypt" and "Midnight," a dusky pair, most appropriately named; the stems are black as ink, the foliage a beautiful bronzy green, so dark as to be almost black. "Midnight" has a fine tree-like habit that is very distinct, while "Egypt" is round and bushy with lustrous foliage, resembling thick crepe; the flowers of both are beautiful shades of bluish purple, variegated with white and lighter purple; both are extremely handsome, and the seeds can be depended upon to bring fine dark leaved varieties. Mixed. 50c. per pkt., $5 per oz.

Petunias, Giants of California.

These wonderful petunias are famous for their great size. and beautiful combinations of color. The giants are very splendid and robust. The fringed grandiflora are equally beautiful but different. They have dainty fringed edges; they are ruffled and frilled and are exquisitely refined and lovely. I give my personal attention to the growing of these grand flowers and can assure my customers that they will be pleased with the seed offered.

Giants of California, Splendid Mixed. 30c per 1000 seeds, $5 per ¼ oz., $18 per oz.

IPOMEA. (Heavenly Blue.) A beautiful annual morning glory. The flowers are in large airy clusters and are of that indescribable heavenly blue so rarely seen in flowers; the throat is yellow inside, spreading softly into blue. The flowers measure from four and a half to five inches across, and about 10 o'clock in the morning no lovelier sight

can be imagined than this peerless vine, the great profusion of flowers almost rendering the foliage invisible. 25c. per pkt.

Kennedya Nigracans. A beautiful climber of wonderfully rapid growth, with glossy green leaves and yellow flowers marked with black; it makes a dense, impenetrable wall of dark green, and will climb thirty or forty feet. It will stand several degrees of frost. 25c. per pkt, $1 per oz.

Kennedya Monophylla Purpura. This is also a fine climber; especially desirable for verandas, and will grow 10 or 12 feet high and 8 or 10 feet wide in two seasons; it grand attraction is its lovely blue, almost purple, flowers, which hang down in graceful droops, 6 to 10 inches long, almost covering the entire plant, and making a perfect sheet of blue. The seeds should have hot water poured over them and allowed to soak over night before planting. These plants will both stand intense heat, and several degrees of frost. 25c. per pkt., $1 per oz.

LATHYRUS SPLENDENS or **"Pride of California."** Nothing could be more beautiful than this wonderful native climber with airy, graceful foliage and spikes of large deep crimson, pea-shaped flowers and rosy pink buds. The flowers are large, seven to ten to the spike. It blooms from December to May. Lathyrus California is often sent out under the same name. Seeds of the true variety are still rare and high priced. 50c. per pkt., $2 per oz. March delivery.

Grasses.

Cyperus Alternifolius, or "Umbrella Grass." 25c pkt., $1 oz., $12 lb.

C. Cracillis. A charming dwarf variety of Umbrella Grass, that grows from 10 to 15 inches high. It makes a fine pot-plant and is pretty in the garden. 50c per pkt.

C. Distans. A very beautiful variety of this ornamental grass, a great addition to the list of rapid growing decorative plants. The slender stems are crowned with alternate leaves about ¾ inch wide and about 4 inches long, that lie perfectly flat, and are surmounted by a tuft of dainty, wiry grass, with stems 3 or 4 inches long, tipped with seeds or flowers. It is much handsomer than the old variety.

Miscanthus Nepalense (or Himalaya Fairy Grass). This charming grass, an airy and dainty Eulalie, was brought from the Himalayas to Australia by my correspondent, who visited India in 1894. A bunch of grass was brought in from a distant valley by some of the natives and he was so charmed with it that he secured the seed. It is called by the English children Himalaya "Fairy" Grass, and is lovely when dried. 50c per pkt , $2 per ¼ oz.

Papyrus Antiquorum, or "Egyptian Paper Plant. 50c pkt., $3 oz.

NOVELTIES AND SPECIALTIES.

Mrs. Shepherd's Grand New Begonias

BRILLIANT LEAVES AND MAGNIFICENT FLOWERS.

Words are inadequate to describe the beauty of these new Begonias as they now appear in my lathhouses and greenhouses. The following are from Gloria de Juoy by Rubra: They are of the Otto Hecker and Gaulin type but greatly superior in every way. All have large oblong leaves and immense panicles of very large flowers in shades of pink, and red; in habit they are tree-like, strong and robust, sending up a great number of canes to the height of six or eight feet. The foliage is a yellowish or bronze green, exquisitely beautiful in texture, and has a shining silken lustre. The difference between the various plants consists in size and shape of leaves, and the brilliant colors with which they are, at various times, tinged or illuminated; they change in the different stages of growth. Though giants in size there is not the slightest suggestion of coarseness about them. On old, well established plants there are frequently 50 to 80 flowers in one cluster

BEGONIA "Enchantress." This charming variety has very large, shining, dark green leaves with dark red edge, very delicately waved, underneath they are rich shining wine color; the young foliage is a copper green shaded with terra cotta; the foliage when old is also brilliant; it has immense clusters of very large flowers of a beautiful, rich rose color, shaded red. 2½-inch pots 20c. each, $2 per doz.

"Fair Rosamond." A splendid, stately Begonia, that sends up strong canes to the height of 6 or 8 feet. The leaves are a lustrous, changeable bronze green above, and a rich wine color underneath. They measure 15 inches in length by 7½ in width and are oblong in shape, running to one long point, with three smaller points on the upper side. The young foliage is a bright red, sometimes spotted with silver. The magnificent panicles of exquisite waxen flowers hang from long stems and are of a deep rose-red color, shaded lighter rose. The pistillate flowers measure 2½ inches in length 2½-inch pots, 20c. each; $2 per doz.

"Ernani." A tall, stately plant, of magnificent habit, with splendid foliage. An old, well established plant; will throw up canes to the height of 8 feet, and forms an imposing sight, with its splendid leaves and grand panicles of elegant flowers hanging from long stems. The foliage is beautiful at all times, the young growth being very bright, in striking contrast with the older growth. 2½-inch pots, 20c. each; $2 per doz.

"Heart's Delight." This lovely Begonia will delight the heart of

any lover of these flowers. It does not grow as tall as the others, but has satiny, changeable green leaves, with three points; edges delicately fluted and edged with dark red, underneath changeable reddish green veined red. The flowers are a pure coral red, the pistillate flowers two inches long, and two idches from tip to tip across the petals. 15c. each, $1.50 per doz.

"Atala." Large leaves with three rather blunt points, dotted with large and small silver spots; mulberry red underneath; young foliage a dark, bronzy red. Flowers bright pink. A splendid grower. 20c. each, $2 per doz.

Incarnata "California." A seedling from "Incarnata," much stronger habit, with leaves twice as large, and prettily waved; flowers a deeper shade and much larger, and in larger panicles; a vigorous grower and always in bloom. 10c. each, $1 per doz.

Lovely New Climbing Begonia "Marjorie Daw." (Rubra by Glauciphylla Scandens) A beautiful new seedling Begonia with Rubra's strong growth united to the climbing habit of Glauciphylla Scandens. It is a rapid, vigorous grower that bears magnificent large clusters of salmon pink flowers, with a shining, satin-like gloss. The ovaries of the pistillate flowers have an oval white spot in center; the leaves are thick and broadly lobed on the upper side and run to a sharp point at the end. It branches freely and will grow ten or fifteen feet high if permitted. Is a fine bloomer and its great beauty will make it very popular. Plants from 2½-inch pots. $2 per doz. Ready after Sept. 1st.

Four Grand New Chrysanthemums Offered By No One Else.

Green and Gold. A new departure in Chrysanthemums. A strong, vigorous grower, with handsome light green foliage, beautifully variegated with creamy yellow; some of the leaves are half green and half yellow, others marbled with yellow, the variegation at all times being very decided. It makes a splendid foliage plant; fine for bedding and exquisite under glass. The flowers are very large and double to the centre; color a creamy white. The foliage always comes true. It makes a splendid exhibition plant. 40c. each, $3 per doz.

"Madonna." A snow white Anemone flowered variety of most beautiful form; the central florets are daintily toothed, giving a very pretty effect; the ray petals are broad and flat. A perfect beauty. Medium early. 20c. each, $1.50 per doz

"White Wings" A very distinct and esthetic semi-double flower; very large with broad petals; a lovely satiny white, exquisitely incurved and curled. Every one exclaims, "What a beauty!" 20c. each, $1.50 per doz.

"Susan B. Anthony." I take great pride in offering this fine new Chrysanthemum, named in honor of Susan B. Anthony, one of the grand women of the century. This magnificent flower is snowy white, has long

stems, and is double to the very center; the petals are broad and long, drooping gracefully from the center, curling at the ends; it has a fine habit, handsome foliage, and is early blooming, continuing for a long time; under glass it is always snowy white, out of doors the petals are prettily lined with pink. Invaluable for cut flowers. $1.50 per doz., $10 per 100.

Grand New Perpetual Blooming Carnation "Anna H. Shaw."

Without exception this is the best cut-flower white Carnation that has ever been offered. It has every qualification for cut-flowers and if it does as well in the east as in California, will be a perfect boon to the cut-flower trade, and for the amateur it is equally desirable as it is very easily grown and gives an immense number of flowers as a bedding plant. It grows readily from cuttings and forms strong bushy plants without pinching, and in a very short time is ready for bloom. The foliage is strong and of a rich color, crisp and fresh; the flowers are above medium size without disbudding, and in the garden one stem will frequently give four or more perfect flowers; they are very double, of perfect form, petals delicately toothed. The flowers never burst, and exquisitely fragrant. One of the greatest recommendations of this Carnation is the reserve foliage always on hand for fresh flowers, so many varieties seem to put forth all their efforts and then come to a standstill. Everyone should try it. Rooted cuttings 75c. per doz., $5 per 100; strong plants $1.25 per doz., $8 per 100.

Three Magnificent New Cannas.

"AUSTRIA," "ITALIA," and "BURBANK." Beautiful as Orchids. 65c. per doz.

Set of Six New Seedling Single Geraniums.

"Symphony in Red." A magnificent geranium, flowers dazzling crimson-scarlet, very velvety and beautifully formed; each individual floret is so arranged as to lie perfectly even, giving a roundness and smoothness to the entire truss that is most unusual; flowers have a large white eye.

"Gaiety." A seedling from Souv. de Miranda, but much handsomer; the flowers are almost a third larger, and even more beautifully variegated than the parent; the white in the lower petals is more clear.

"White Pearl." A pure pearly white, very large, with perfectly round flowers, very large trusses borne on long stems; a valuable addition to the list of white geraniums.

"Fair Maiden." A very charming companion to "Pink Pansy."

Outer half of petals blush white, netted with pink, circle of light salmon-pink in the centre of flower; white eye; flowers are often beautifully shaded and variegated lighter, or darker colors. Foliage dark green, with a broad black zone

"**Pink Pansy.**" A most charming new variety with large flowers, beautifully marked, resembling a pansy. Centre pure white, surrounded by a circle or halo of bright salmon-pink, outer half of petals veined with light red. Flowers very large, very handsome foliage, with dark rich bronze zone. A most striking variety.

"**Surprise.**" A seedling from Arc-En-Ciel, but much more intense in color; the two upper petals are blotched with velvety scarlet, veined dark red, the edges and three lower ones are a vivid purplish-crimson, clouded at the margin with bright crimson. A very striking variety. Very dwarf habit. $1 50 per doz.

Foliage Varieties a Specialty.

Single Tricolor. "Mrs. Pollock," "Sunset" and "Happy Thought." $2 per 100 unrooted; cuttings $1 per 100; $7.50 per 1000.

Bronze and Gold. Three sorts. 40c. per doz., $1,50 per 100; cuttings, $1 per 100

Double Tricolor. "Mrs. Parker" and" Hermione." 5c. each, 50c. per doz. $2.50 per 100.

Pelargoniums—A Great Specialty.

The very best varieties growd in *quantity by contract only.*

"**Innocent.**" A grand novelty. The best white ever offered. An exquisitely frilled flower. Regal variety. 20c. each, $2 per doz.

Cannell's Double White and **Volante National Album.** Fine regal varieties. 15c. each, $1.50 per doz., $8 per 100.

Other Fine Regal Varieties. "Mad Thibaut," "Anita," "Leonora" "Princess Victoria," "Countess of Oxford," "Darkness," "Empress of Russia," "Empress of India," "Dr. Masters," "Dr. Andre," "Queen Victoria." 15c. each, $1.25 per doz., $6 per 100 asst.

Fancy Varieties. "Golden Gate" (one of the best) "Mrs. John Saul," "Mabel," "Washington Improved," "Black Prince," "Maroon and Pink," "Bride of Lamermoor." 10c. each, 75c. per doz., $5 per 100 asst. Add 25c. per 100 for postage.

New Giant Flowered Heliotropes.

One can scarcely recognize the old garden favorite in its new glorified form. The size of the foliage and its quality is doubled; the habit of the plant is made compact and bushy instead of being scraggy and sprawling;

the size of the flowers is magnified beyond belief, specimen heads measuring ten to fifteen inches across $1.50 per doz., 2½-inch pots.

Himalaya Fairy Grass.

A rare Eulalia from the Himalaya mountains, which bears the most charming golden-yellow plumes, that keep for years, and are invaluable for dried bouquets. For full description see Australian Seed Novelties. 75c. to $1.25 per doz.

Phormium Tenax or New Zealand Flax.

A grand decorative plant, fine to associate with palms and plants of like nature. The leaves are broad and sword-shaped and of a beautiful bluish green with dark red edges. They all start at the base of the plant and fold over each other, flaring out at the top like a fan when open. There are three varieties, two of which have handsomely variegated foliage striped lengthwise with yellow and white. The leaves are from 3 to 4 inches broad, and from 3 to 5 long. Outside it forms large clumps 8 to 10 feet high.

Phormium Tenax. 25c. to $1 each.

P. Cookii Variegata. 50c. to $1 each.

P. Colensi Var. 75c. to $1.50 each.

Rudbeckia Laciniata, fl. pl. "Golden Glow."

A hardy perrennial plant, growing 8 feet high, branching freely, and bearing on long graceful stems hundreds of exquisite blossoms of the brightest golden yellow as large as Cactus Dahlias. It is splended for cut flowers and the blossoms keep a long time. It is one of the most valuable introductions in many years. 75c. per doz., $4 per 100.

Rudbeckia Fulgida.

This is decidedly the brightest and most showy among the hardy plants in cultivation, and of the easiest culture possible. It will thrive in any situation, preferring a sunny exposure. The plant is compact and bushy, producing numerous stems with hundreds of heads of flowers, the says of the flowers beingg a dazzling orange-yellow, while the disk is of a deep rich velvety maroon-brown. This combination of color makes it one of the most striking objects in a flower garden. 75c. per doz., $5 per 100.
